

DOTS and BOXES

RULES:

1) When it's your turn, connect two adjacent dots (horizontally or vertically only - no diagonal moves) like this:

2) If your line completes a four-sided box, write your initials in the box and make another move; continue until no additional boxes are formed.

3) When no further lines can be drawn, count the number of boxes with your initials - the person with the most boxes wins.
